

## Impacts Diagram

(Impacts Table and Activity on page 2).

## Impacts Table

- Look closely at the Impacts Diagram of a mine site and consider the features and activities that could have an effect on the environment (air, water, land, energy and waste management). List these in the table below.
- Consider which features and activities at the mine site could reduce these impacts. List these in the last column of the table.

Aspects of environment	Mining activities that may impact on the environment	Action taken at the mine to reduce the impact
Air		
Water		
Land		
Energy		
Waste Management
