

Experiment Planner

- For your experiment you will only be able to use 1 piece of A4 paper for each plane
- You can tear/cut the paper, but you cannot add or attach anything like tape or paperclips
- You can make multiple planes during your testing phase, but you will choose your best plane to record the time/distance

	Longest flight time	Furthest distance travelled
Ask a Question		
Background Research		
Hypothesis		

Testing

Conduct three trials and record the flight time for each flight

Trial	Flight time

Conduct three trials and record the distance travelled for each flight

Trial	Flight time

Analyse Data

	Flight time
Average	

	Distance travelled
Average	

Conclusions

Would you make any changes?
