

Elevate your Future: Soar to New Heights!

Drone Pilot

Capture aerial imagery or conduct surveys of mining sites, inspect infrastructure, or monitor the progress of mining activities. Ensure compliance with safety regulations, maintain, and calibrate the drones, and analyse the collected data.

Site Area

- Planning
- Exploration
- Operations
- Projects
- Closure
- Rehabilitation

Vocational Pathway

- CERT III in Surveying and Spatial Information Services
- CERT IV in Autonomous Control and Remote Operations
- CERT IV in Industrial Automation and Control

University Pathway

- Bachelor of Aviation
(Remotely Piloted Aircraft Systems)

School Study Areas

- CERT II in Autonomous Technologies
- CERT III in Aviation (Remote Pilot)
- English
- Maths

Your Strengths

- Spatial Awareness ✓
- Problem Solving ✓
- Attention To Detail ✓
- Adaptability ✓
- Communication ✓
